1 kg & 5 kg

HUMITECH

1119

ABOUT

Unfortunate events and catastrophic situations are an inevitable part of life. Catastrophic events bring deaths, and we all, in some manner, have endured the smell of decaying matter. Just how annoying it can be, can't be more overstated. To counteract this, we've brought the HUMITECH 1119 that permanently mitigates decaying odors of dead bodies and biomedical waste!

APPLICATION:

This product is ideal for the government health department, national highway and city road, village, and residential use for a human dead body. Also, in catastrophic times when such scenarios are common this product can be used effectively. This product absorbs any lingering odor even after the source of odor has been removed. After using this product, the foul smell won't be an issue at your farm, in your building & home, etc.

HOW TO USE:

This product comes with a nozzle/spray pump that can be directed towards the required area to apply the formulation uniformly. If an extreme decay smell is observed, use the product to cover the body multiple times or in hourly intervals. Apart from removing the bad smell, this product will clear 99.99% of bacteria and germs from the place & areas. This will keep your ambiance clean and pleasant.

**Available pack in
150ml, 1 Ltr., & 6.5 Ltr.**
