

# TOTAL HEALTH SOLUTIONS

Total Health Solutions (THS) is being developed as one of India's largest Integrated virtual health-care platforms. THS Integrates all the healthcare services under one ambit and digitally enables one-stop health solutions, from doctor's consultation to Diagnostics to Medicines and most importantly facilitating surgery as well as post-surgery home healthcare services.

## SERVICES

In the new digitized India, everything is available at your fingertip but no one-stop, Integrated digital healthcare solutions are available. This is why Dr. Geetika, founded Total Health Solutions (THS). Being a proficient doctor and administrator, she understands both sides of the table and thus THS has been designed as a doctors-friendly digital platform on both web as well as a mobile app. THS provides absolute freedom and flexibility through the web & App to consult with patients at doctor's convenience. The aim is to equip doctors & healthcare professionals with the best digital health-tech platform to thrive and grow in this rapidly digitizing healthcare industry and to provide the best-in-class health care services to patients without limitations of geography and time.

**Dr. Geetika Madan Patel (MBBS, MD)**  
**Founder: Total Health Solutions**

**Governing Body Member and Medical Director** at Parul University & Parul Sevashram Hospital

# CONSULTATIONS AT YOUR EASE & AS YOU NEED

## WHY DOCTORS ARE JOINING THS ?

To grow more, to serve more and to earn more..

- Serve patients without geographic limitations
- Consult any time from anywhere
- Earn more without any investment
- Work at the ease and comfort of home at your preferred time
- Earn recognition through a wider, bigger, and better presence on the digital platform
- Join hundreds of doctors strong THS's growing doctor's community

THS is Tech-enabled, doctors friendly, #DoctorsKaApnaEclinic

- Consult patients at your convenience anywhere, anytime using THS
- Securely store patient data in an organized way and access it as & when needed
- Be a part of the emerging Tele-Consultation trend at "no" cost & generate additional revenue using THS

- THS has collaborated with best-in-class diagnostics partner and provides Lab Test services at home for the patients.
- SRL Diagnostics, Usmanpura Imaging Centre, etc. are our partners in providing pathology and radiology services

- We have collaborated with National Medicine delivery players, for example, MedKart, to provide medicines at patient's doorsteps at the best possible rates and within 24 hours.

- Using Diagnostics on the wheel model, THS will be delivering ECG, X-Ray, Physiotherapy, Breast Cancer Screening and other diagnostics as well as health checkup services at the patient's doorstep giving a new dimension to preventive healthcare.

# WHY HOSPITALS SHOULD COLLABORATE WITH THS ?

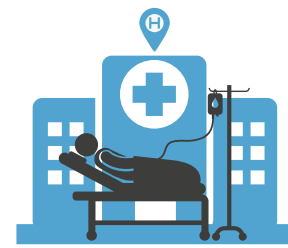

THS is designed and developed by a team of healthcare professionals and technology experts to deliver the utmost care to patients at their fingertips. The founder of THS, Dr. Geetika Madan Patel, is a proficient doctor and administrator and understands the need for enabling surgical procedures (acquiring and facilitating patients for operative procedures) digitally so hospitals across the region can benefit from the same in the rapidly digitizing healthcare industry.

Access to patients beyond geographical reach

Better resource utilization in terms of equipment and OT

No cost for getting patients - We work to get patients for you

Dedicated health-companion to deal with patients & counseling them

Post-surgery home healthcare services plus post operative follow up visits scheduling thus making the overall experience holistic and better

Digitizing end to end administrative work making the overall process user as well as hospital friendly

# WHY PATIENTS WILL CHOOSE THS ?

Access to the best hospitals & surgeons

Preventive health care services, diagnostic services & medicines delivery at home making the overall experience extremely smooth and rewarding

Easy Payment, Buy Now Pay Later options for patients

Transportation services for patients

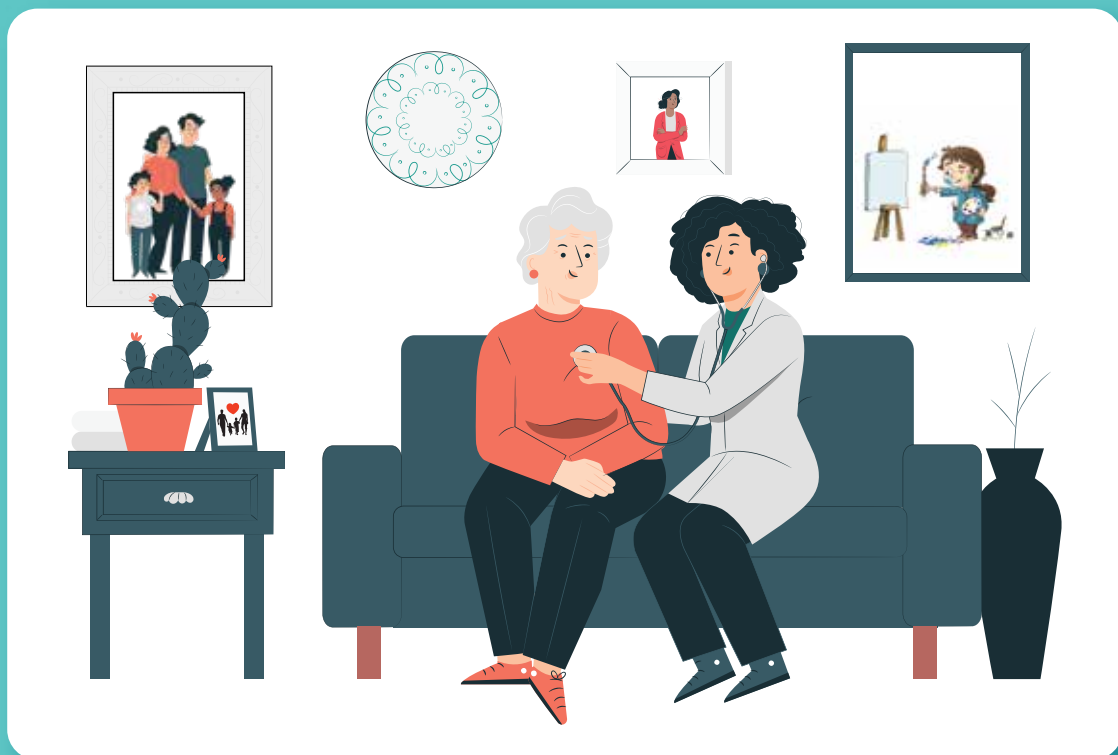

Pre & post-surgery diagnostics and consultation at home

Dedicated health companion, to patients from admission to discharge

## HOME HEALTHCARE SERVICES

**THS** also focuses on providing the best of healthcare at home through partner networks, having experienced, trained, and skilled healthcare professionals. We have collaborated with expert healthcare at-home service providers and to provide home-healthcare services to the needy patients.

**THS** enables Nursing Care, Geriatric Care, Wound Dressing, Physiotherapy at home, etc. Through diagnostics on the wheel model, we are also enabling ECG, X-ray, Breast Cancer Screening, and Audiometry healthcare services at home.
